Jorge Matthew M. Acopio

Information Technology Student & Aspiring Cybersecurity and Software Developer

Pulilan, Bulacan, Philippines | acopiojorgematthew@gmail.com | github.com/JMacopio | linkedin.com/in/jorge-matthew-acopio-73659722b

SUMMARY

Information Technology student focused on software development, applied AI, and cybersecurity fundamentals. Builds functioning software end to end, most notably Anatomia 3D, an educational Unity application for Radiologic Technology students combining interactive 3D models, gamified quizzes, and a Firebase-backed classroom system. Comfortable across the stack: application logic, cloud data, and backend integration. Seeking an entry-level or internship role in software development.

TECHNICAL SKILLS

Programming Languages: C#, C++, Java, JavaScript, Kotlin

Web Development: HTML, CSS, JavaScript, React, ASP.NET Core

Databases: Firebase (Authentication, Firestore), MySQL, SQL Server

Tools & Platforms: Unity, Git, GitHub, Visual Studio, VS Code, Blender, Android SDK

Other: UI/UX Design, Database Management, System Analysis, Troubleshooting, Cybersecurity Fundamentals, MVP/MVVM Architecture

EXPERIENCE

Lead Developer, Capstone Project — Anatomia 3D 2025 – Present

Academic Project

- Designing and building an educational Unity application end to end, including 3D model interaction and touch-based bone tap detection
- Implemented quiz systems, gamification, achievements, and progress tracking
- Built a Firebase backend (Authentication, Firestore) with role-separated student and admin experiences and a full teacher admin dashboard

Freelance / Personal Projects 2023 – Present

Independent

- Built small applications and tools outside of coursework to practice new languages, frameworks, and system design patterns

PROJECTS

Anatomia 3D — Unity, C#, Firebase, Blender

- Gamified mobile app for interactive human anatomy learning, built for Radiologic Technology students

Personal Developer Portfolio — HTML, CSS, JavaScript, Web3Forms

- Responsive portfolio site with a project showcase, certifications section, and downloadable resume; integrated Web3Forms for serverless contact form submissions

Pokémon-Style RPG — C#, .NET Framework, Windows Forms, MVP Pattern

- Turn-based RPG with an explorable overworld, AI-driven combat, inventory system, and save/restore functionality

SariSync — C#, ASP.NET Core, Windows Forms, SQL Server

- Full-stack inventory and point-of-sale system for small retail stores with a Windows Forms admin panel and a RESTful Web API

GoGetCash — Kotlin, Android SDK, Firebase, MVVM Architecture

- Personal finance Android app for tracking cash flow, loans, and transactions, backed by Firebase

Toss & Destroy — C#, Unity, UI Systems

- Reflex arcade game with difficulty selection (Easy/Medium/Hard), real-time scoring and a seamless game-over/restart loop without reloading scenes.

Unfinishable Coin Collector — HTML, CSS, JavaScript (Canvas API)

- Browser arcade game with a game loop, collision detection and difficulty scaling: every coin collected speeds the player up and makes the board harder.

EDUCATION

Bachelor of Science in Information Technology 2023 – Present

College of Our Lady of Mercy

- Relevant coursework: Data Structures & Algorithms, Database Management Systems, Networking, Systems Analysis & Design, Human-Computer Interaction, Information Assurance & Security
- Capstone Project: Anatomia 3D

Associate Degree in Aircraft Maintenance Technology — Airframe & Powerplant 2018 – 2021

DPR - Philippine Academy in Technology and Sciences

- Coursework: sheet metal repair, composite materials, welding, hydraulic/pneumatic/fuel systems, landing gear, electrical systems, piston and turbine engines

CERTIFICATIONS

Intro to Cybersecurity — Cisco Networking Academy, October 2025

Hardware and Upgrade Support — Cisco Networking Academy, June 2026

AI Fundamentals with IBM SkillsBuild — IBM SkillsBuild, June 2026

Linux Unhatched — Cisco Networking Academy, May 2026

Robotics Training and Workshop — Felta Techvoc Academy Inc., November 2024

Ignite Philippines — Wadhwani Foundation, March 2026
